

Sameeha Ansari

Frontend Developer (React / MERN)

sameehaansari011292@gmail.com — +91 9645243136

LinkedIn — GitHub

PROFESSIONAL SUMMARY

MERN Stack Developer with hands-on experience building and deploying full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in developing RESTful APIs, implementing JWT-based authentication, designing scalable application architectures, and deploying applications using Docker and AWS services. Strong problem-solving abilities with a passion for writing clean, maintainable code and continuously learning modern web technologies.

PROJECTS

Finera – Fintech Loan Management System Backend GitHub — Frontend GitHub

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, Docker, AWS EC2, AWS Amplify, GitHub Actions

- Developed a full-stack fintech loan management system for handling loan applications, approvals, EMI scheduling, and payment tracking.
- Implemented secure authentication and authorization using JWT-based access control.
- Designed and developed RESTful APIs for managing users, loans, transactions, and financial records.
- Automated recurring background tasks using Cron Jobs to improve operational efficiency.
- Containerized the backend application using Docker and deployed it on AWS EC2.
- Hosted the frontend on AWS Amplify with CI/CD integration for automated deployments.
- Implemented GitHub Actions workflows to streamline backend deployment processes.
- Developed responsive and protected user interfaces using React.js with role-based access control.

WristStyle – E-Commerce Website

GitHub Link

Tech Stack: Node.js, Express.js, MongoDB, EJS

- Developed a full-featured e-commerce platform with authentication and session management.
- Implemented product catalog, shopping cart, and admin dashboard functionalities.
- Designed MongoDB schemas for efficient storage and retrieval of product and user data.
- Implemented role-based access control and secure login mechanisms to enhance application security.
- Followed MVC architecture principles to improve code maintainability and scalability.

EDUCATION

Brototype, Kochi, Kerala

May 2024 – Present

MERN Full Stack Development Training

Kerala University

2013 – 2015

MBA in Finance and HR

Kerala University

2010 – 2013

Bachelor of Business Administration (BBA)

TECHNOLOGIES

Languages: JavaScript, TypeScript, HTML, CSS, SQL

Frontend: React.js, Bootstrap

Backend: Node.js, Express.js

Authentication: JWT

Database: MongoDB

DevOps & Cloud: Docker, AWS (EC2, S3), AWS Amplify, CI/CD (GitHub Actions)

Tools: Git, GitHub, Postman

Others: REST API, DSA, Figma
